

To adhere to the 1 Star criteria of Best Practice No. 4, Action No. 5, the City of Warren has utilized solar energy to power two of its radar speed signs since 2015.ⁱ

ⁱ BP No. 4 – Action No. 5 – 1 Star

In order to meet the expectations associated with the 2 Star criteria, the City of Warren has installed LED lighting as a pilot for roughly 75 fixtures in a number of its streets, parking lots, and city parks/campgrounds. As per its policy, the city has several projects including its pool-house and community center/ice rink that will utilize LED lighting on the surrounding streets as well as its parking lots.

ii BP No. 4 – Action No. 5 – 2 Star

As of 2013, the policy enacted by the City of Warren has been to routinely install LED streetlights whenever a sidewalk or street project was occurring; this includes street lighting, parking lot lighting, and park/campground lighting.
